Alan J. Hollenbeck Receives Certification as a Board Certified Environmental Engineer

Wheaton, IL (February 11, 2008) – Alan J. Hollenbeck, P.E., President and CEO of RJN Group, Inc., received certification as a Board Certified Environmental Engineer with a specialty of water supply and wastewater by the American Academy of Environmental Engineers. Certification requires a professional engineering license, a minimum of 16 years of relevant experience, and successful completion of an examination conducted by peer members of the Academy.

Mr. Hollenbeck has 30 years of experience in the civil and environmental engineering fields and has been with RJN Group, Inc. for 28 years. He has been Project Technical Director for over 200 Infiltration / Inflow studies and rehabilitation design projects. Mr. Hollenbeck is an expert in all phases of Infiltration / Inflow rehabilitation including SSES, design, construction engineering, post-rehabilitation flow monitoring, computer modeling, and integration of SSES projects with GIS application.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
