RJN Group, Inc. Selected to Prepare Sewershed Plan for the City of Baltimore

Wheaton, IL (September 19, 2007) – RJN Group, Inc. was recently selected to evaluate and prepare a sewershed plan for the Dundalk Sewershed. Under a joint settlement between the Department of Justice, the Environmental Protection Agency, and the state of Maryland, the City of Baltimore has agreed to undertake a comprehensive, system-wide program that will bring the city into long-term compliance with the clean Water Act. Services that RJN will provide include: collection system and wastewater pumping station inspection and characterization, developing and implementing public information and education program, spatial and tabular data management utilizing a variety of software applications, infiltration and inflow evaluation, long-term capacity / peak flow management, and preparation of the Dundalk Sewershed study plan. The Dundalk Sewershed encompasses 3.9 square miles and contains approximately 185,000 feet of pipe and 850 manholes. The assessment is slated to begin in September 2007.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
