Fox Metro Expands Use of CASS WORKS Application

Wheaton, IL (March 24, 2004) – RJN Group, Inc. was recently selected by the Fox Metro Water Reclamation District of Illinois to implement the CASS Plant Maintenance Application. Since 1991, Fox Metro has used CASS WORKS software to manage assets, service requests, work orders, and television inspections in their sanitary collection system. This project expands the use of CASS WORKS into the wastewater treatment plant. CASS WORKS will manage plant assets, work orders, warehouse inventory and costs. The project will begin in April and be completed by December, 2004.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients. With the firm headquartered in Wheaton, Illinois, RJN Group, Inc. operates 14 additional offices throughout the United States.

RJN Group, Inc. provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
