The Massachusetts Water Resources Authority Selects RJN Group, Inc. for a Multi-Year Wastewater Meter Replacement Program

Wheaton, IL (October 31, 2003) – The Massachusetts Water Resources Authority (MWRA) recently selected RJN Group, Inc. to perform engineering services for Contract No. 6793 – Replacement of Wastewater Meters in the City of Boston and surrounding 43 member communities. The project encompasses the installation of 196 flow meters, data collection and processing, wireless telemetry, software development with event notification and “real time” data access, system training, and software licensing. The project begins in November of 2003 and continues through December of 2004. The project also includes extended equipment product support and parts replacement services for an additional 5 years.

RJN Group, Inc. is a leader in providing Engineering Services and Information Technology Software to municipal, county, state, and federal clients. RJN has offices located in Boston, Massachusetts; Vienna, Virginia; Norcross, Georgia; and throughout the United States. The firm’s headquarters is located in Wheaton, Illinois.

RJN provides public works engineering services and information technology services for the development, maintenance, and management of municipal infrastructure systems including sewer, water, and drainage. Projects include engineering studies, preliminary and detailed design, construction engineering, and maintenance management. The firm provides the CASS WORKS® family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView™, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
