RJN Group Obtains NASSCO Certification

Wheaton, IL (December 9, 2008) – RJN Group, Inc. recently received certification as a member of the National Association of Sewer Service Companies (NASSCO). NASSCO is an organization which is comprised of contractors, suppliers, engineers, public agencies, and others aligned to the trenchless technology field. Members are required to comprehend the quality and safety issues dealing with rehabilitated pipelines and are active in developing guidelines and specifications that become industry standards. As a member of NAASCO, RJN makes a commitment to set industry standards for the rehabilitation of underground utilities while assuring the continued growth of trenchless technologies. Additionally, RJN's CASS WORKS® suite of software products has been NASSCO certified since 2004 and remains the only Computerized Maintenance Management System (CMMS) on the market that has obtained PACP certification.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
