RJN Group, Inc. Provides Design Services for Wilmer Road

St. Louis, MO (September 4, 2009) – RJN Group, Inc. has been selected to provide design services for Wilmer Road in St. Charles County, Missouri. Services include widening the existing roadway, installing shoulders, and adding turn lanes at intersections. Some reconstruction will be necessary to eliminate substandard horizontal and vertical curves. Drainage ditches will also be improved, cross-road culverts replaced and Low Impact Development techniques will be utilized where possible. The final design of this project will increase the capacity of the roadway as well as greatly improve current safety problems with sight distances and turning movement protections. The cost of this project is an estimated \$ 2 Million.

RJN Group, Inc. provides engineering consulting services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm. RJN, established in 1975, is headquartered in Wheaton, Illinois with offices nationwide.
