City of Waxahachie, TX Selects RJN Group, Inc. For CMMS Implementation

Wheaton, IL (July 9, 2007) – RJN Group, Inc. was recently selected by the City of Waxahachie, Texas to implement a comprehensive CMMS solution, CASS WORKS®, for the Department of Public Works and the Department of Utilities. Using a phased implementation, the system will track all customer service requests from problem notification through work order resolution. Work Order History dated from 1994, from the Utilities Department was converted into CASS WORKS®. Assets (sewer and water) are being inventoried and the information will be linked through a GIS. The Customer Service Request and Work Order Processing went live in May 2007.

RJN Group, Inc. provides engineering consulting services and information technology services for municipal, county, state, and federal infrastructure systems. The firm's offerings include the study, design, and construction management of wastewater, water, stormwater, roadways, and bridges. GIS and asset management services are also offered by the firm.

RJN also provides the CASS WORKS family of software products for tracking of asset inventories, maintenance activity, physical inspection and histories, and related management systems. RJN also provides CASSView, a GIS deployment tool providing direct access to GIS, CASS WORKS, and other related data.
